Thanks very much for the spreadsheet. Are there lat/long data as well to correlate to the station locations?

Sincerely,

Sabrina Forrest

Subject: RE: Animas River fish data

Sabrina,

I've attached a spreadsheet of fish sampling summaries from the Animas River beginning at a site above Swansea Gulch.

The data are sorted by Elevation (highest to lowest) site then sample date. If there are any questions, feel free to call.

Sabrina,

I've passed your request to our biologists for comment. I'm in the process of importing all 2010 field data, so it will be forthcoming as an update to the initial data.
